

ENHANCED COUNTY LISTING SPREADSHEET

2020 instructions

by Matt Bartels & Michael Hobbs

Intro:

In 2003, I made available an excel spreadsheet for use in easily tracking county life lists. It is based on the abundance codes maintained by Washington Birder [aka Ken & Laurie Knittle, with help from local birders], and I've updated it whenever new taxonomical changes and county firsts have come out. Last year, Michael Hobbs put together this new version of the spreadsheet, using his magical skills as a programmer. The new version starts with the same basic format as the previous spreadsheet, but goes way beyond it in creating helpful tools for the county lister. **[For the new functionality added in 2020, see page 7].**

My strongest recommendation: If you liked the old version you'll love the new version – take a little time to plough through the intro materials below with a copy of the new spreadsheet open [ideally, with your data already imported]. Once you've got the hang of the various bells & whistles, it is easy to use. If you've never used the old version, there's no reason not to just dive in with the new one.

Matt Bartels

mattxyz@earthlink.net

Instructions for using the new 'enhanced' county spreadsheet.

System requirements: You'll need at least Excel 2007 to be able to use all the functions in these sheets.

This new version of the spreadsheet includes a lot of helpful extras that make use of 'macros' in more recent versions of excel. We are still learning about glitches as we test this on PCs and Macs, so please let us know if/when you run across problems. When you open the file, you may be asked whether or not you would like to 'enable macros' – always say 'yes' to this question, or the extras won't work.

Sometimes on Macs, when you push one of the buttons mentioned below you'll receive an error message. In all the cases I've come across so far, you just click ok and everything will be fine.

If you are not familiar with the 'traditional' county spreadsheet we've made available here, I'd recommend first reading the instructions for that spreadsheet to get a sense of how to enter your county 'ticks' into the base spreadsheet.

To begin with this spreadsheet, either paste in a copy of your most recent spreadsheet data [see below] onto the Master sheet in the new file [using the instructions provided at http://wabirder.com/combined_county_list.html], or re-enter your data onto the Master sheet. As with all the earlier updates, it can be a bit confusing and cumbersome to do this periodic transfer from an older to a newer version -- I recommend you save backup copies before you start the process. The short version of what you need to do:

1. Sort the new spreadsheet and your old one in a common sort order [AOU 59th supplement is a good one to use, since your list is probably already in that order].
2. Add rows in your old sheet where new species have been added, and delete rows of species that have been removed from the list.
3. Check the row number for Dickcissel on both sheets to make sure they are the same.
4. Copy the data field from your old list [everything from the first Clallam species to Dickcissel in Yakima, but not the species & county names or total columns/rows].
5. On the new sheet, click into the first box and select 'paste special' [not paste] and then select 'values' on the dialog box that opens.
6. Double-check the totals look the same as in your old version.
7. Sort the new spreadsheet according to the newest tax order.
8. Play.

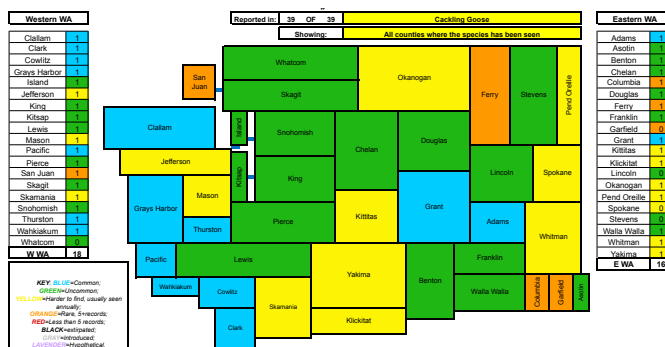

Sheet 1: Master Sheet– this works just like the old version – totaling county lists, state , eastern & western WA totals and # of counties in which you’ve seen each species. You’ll need to be on this sheet to access a couple other features mentioned below.

[illegible]

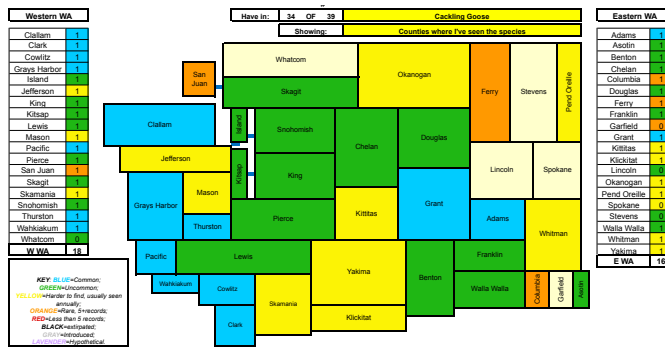

Above: A sample excerpt from the master spreadsheet

Sheet 2: Species Sheet – this sheet allows you to view species abundance in three different ways. When you open this sheet, you'll see a map of Washington state in the center, with the counties delineated. Along each side are lists of the counties [divided into eastern & western WA lists]. At the top, towards the left side are the buttons you use to control the map creation. The first buttons in a row are arrows on either side of the 'jump to a species' button. The arrows allow you to step forward or backward through the taxonomic order of Washington birds. Click 'jump to a species' to see a pulldown menu you can use to get to a specific species quickly.

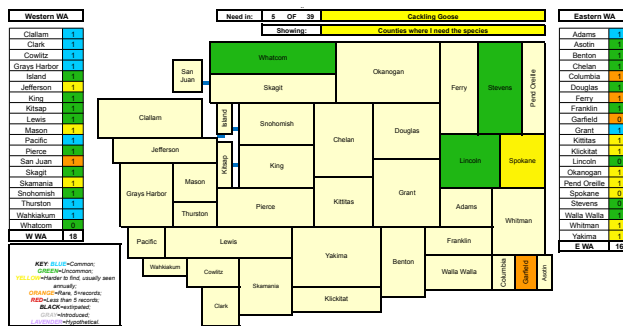

The button below this is labeled **"Change map Display Type"** – click this and a dialog box opens that allows you to select one of 3 map displays – the first option displays the color coded abundance for the species selected w/o regard to which counties you have seen the species. With the second option, you can see all the counties where you have already seen a species [and what the abundance is for that species in each of those counties]. Counties where you have not seen the species are colored either off-white or white. Those in off-white are counties where the species has been recorded previously. Those in white have never had a report of the species. With the 3rd display option, you can see all the counties where you have not yet seen a species [and what the abundance is for that species in each of those counties]. Counties in this display are color coded when the species has been reported before in that county, white when the species has never before been seen in that county, and off-white when you've already seen a species in that county.

Above: The first map shows the color-coded abundance for Cackling Goose in Washington State.

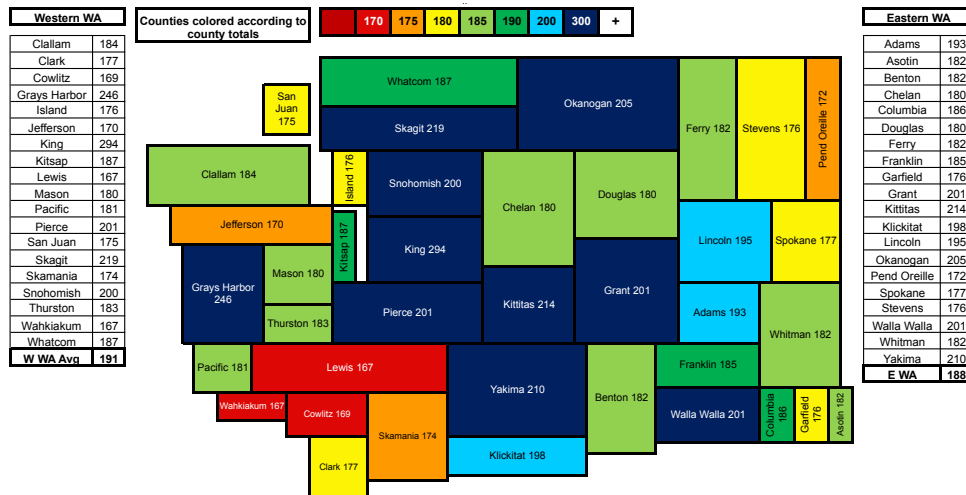

Above: In this second map, still for Cackling Goose, the only counties 'colored in' are those where I've already seen Cackling Goose. Those not colored are ones where I still hope to find CACG some day. (In this example, there are no counties in pure white, because Cackling Goose has been reported in all 39 counties.)

Above: This third map highlights the counties where I need Cackling Goose, giving their abundance codes too [green in Whatcom & Stevens, yellow in Spokane, etc]. It is in effect the mirror image of the 2nd map above – and can be very useful when trying to visualize listing options.

Sheet 3: Ranking Sheet – this sheet gives you a color coded ranking of your county lists in the state, represented on a state map. You set the thresholds for when a county moves ‘up’ in ranking, and using this you can quickly see which counties are your ‘best’ ones, and which ones still need more work.

Above: County Ranking Sheet: In the above screen grab, even with the text too small to read totals, you can easily interpret the colors to see that the southwestern counties are the ones where I need the most work [in red], and the counties surrounding King Co are the ones where my totals are highest [in dark blue]

Along the top are the county totals that serve as ‘thresholds’ for each color code on the map – play with those numbers to find a series of #s that give you a meaningful breakdown of your county totals -- once you’ve adjusted those thresholds as desired, and whenever you’ve added new county ticks to the master sheet, click on the button labeled “Update color ranking” to have your changes reflected in the map.

Important: This map does not automatically update when you add county ticks to the master sheet – always click ‘update color ranking’ when you come to this sheet to be sure it is reflecting your most current status.

County Needs Lists: Back on the Master Spreadsheet, click ‘control+N’ [for Macs, click ‘option+command+N’]. This opens a dialog box where you select a county and click ok. After a bit of processing, you’ll have a single list of all the birds you need for a county, along with their abundance code. This list will appear in a new sheet with the county name on it, after the first three sheets.

Skamania County Needs: (Have 174)		
Snow Goose	Semipalmated Plover	Dusky Flycatcher
Ross's Goose	Lesser Yellowlegs	Ash-throated Flycatcher
Brant	Long-billed Curlew	Western Kingbird
Blue-winged Teal	Sanderling	Philadelphia Vireo
Cinnamon Teal	Semipalmated Sandpiper	Blue Jay
Harlequin Duck	Pectoral Sandpiper	Black-billed Magpie
Surf Scoter	Long-billed Dowitcher	Bank Swallow
White-winged Scoter	Wilson's Phalarope	Pygmy Nuthatch
Black Scoter	Red-necked Phalarope	Rock Wren
Long-tailed Duck	Red Phalarope	Veery
Smew	Sabine's Gull	Sage Thrasher
Mountain Quail	Thayer's Gull	American Pipit
Gray Partridge	Glaucous Gull	Bohemian Waxwing
Ring-necked Pheasant	Common Tern	Lapland Longspur
Ruffed Grouse	Parasitic Jaeger	Chestnut-collared Longspur
Spruce Grouse	Barn Owl	Snow Bunting
White-tailed Ptarmigan	Western Screech-Owl	Ovenbird
Red-throated Loon	Burrowing Owl	Northern Waterthrush
Pacific Loon	Spotted Owl	Tennessee Warbler
Clark's Grebe	Barred Owl	American Redstart
American White Pelican	Great Gray Owl	Yellow-breasted Chat
Brown Pelican	Long-eared Owl	American Tree Sparrow
American Bittern	Boreal Owl	Clay-colored Sparrow
Cattle Egret	Northern Saw-whet Owl	Brewer's Sparrow
Green Heron	Black Swift	Black-throated Sparrow
California Condor	Black-chinned Hummingbird	Rose-breasted Grosbeak
Northern Goshawk	Calliope Hummingbird	Indigo Bunting
Swainson's Hawk	Broad-tailed Hummingbird	Yellow-headed Blackbird
Rough-legged Hawk	Acorn Woodpecker	Gray-crowned Rosy-Finch
Golden Eagle	Williamson's Sapsucker	Cassin's Finch
Merlin	Red-naped Sapsucker	White-winged Crossbill
Prairie Falcon	White-headed Woodpecker	Lesser Goldfinch
Sandhill Crane	Black-backed Woodpecker	

Above: A sample of what a “County Needs List” looks like – my Skamania needs list

County Life List: To generate a list of all the species you have already seen in a county, follow the above procedure, but click ‘control+L’ – Life lists will appear as new sheets as well labeled with the county name and ‘life’ [I.e, “King Life”]

Asotin Life List: 182				
Cackling Goose (2)	Eared Grebe (3)	Least Sandpiper (3)	Olive-sided Flycatcher (1)	White-breasted Nuthatch (3)
Canada Goose (1)	Western Grebe (2)	Baird's Sandpiper (5)	Western Wood-Pewee (1)	Chipping Sparrow (1)
Tundra Swan (3)	Double-crested Cormorant (1)	Wilson's Snipe (3)	Willow Flycatcher (1)	Brewer's Sparrow (2)
Wood Duck (1)	Great Blue Heron (1)	Ring-billed Gull (1)	Hammond's Flycatcher (1)	Vesper Sparrow (1)
Gadwall (2)	Great Egret (3)	California Gull (2)	Gray Flycatcher (5)	Lark Sparrow (2)
Eurasian Wigeon (3)	Black-crowned Night-Heron (4)	Herring Gull (2)	Dusky Flycatcher (1)	Savannah Sparrow (1)
Mallard (1)	Turkey Vulture (3)	Island Gull (5)	Pacific-slope Flycatcher (4)	Grasshopper Sparrow (2)
Blue-winged Teal (2)	Cowbird (1)	Glaucous-winged Gull (3)	Coronilla Flycatcher (2)	Song Sparrow (1)
Northern Shoveler (2)	Bald Eagle (1)	Caspian Tern (3)	Say's Phoebe (1)	Lincoln's Sparrow (3)
Northern Pintail (2)	Sharp-shinned Hawk (1)	Common Tern (5)	Western Kingbird (1)	White-crowned Sparrow (1)
Green-winged Teal (1)	Cooper's Hawk (2)	Forster's Tern (2)	Eastern Kingbird (1)	Dark-eyed Junco (1)
Redhead (3)	Swainson's Hawk (3)	Rock Pigeon (1)	Northern Shrike (2)	Western Tanager (1)
Ring-necked Duck (2)	Red-tailed Hawk (1)	Eurasian Collared-Dove (3)	Cassin's Vireo (1)	Black-headed Grosbeak (1)
Bufflehead (1)	Rough-legged Hawk (1)	Mourning Dove (1)	Warbling Vireo (1)	Lazuli Bunting (1)
Common Goldeneye (1)	Golden Eagle (1)	Barn Owl (3)	Red-eyed Vireo (1)	Western Meadowlark (1)
Barrow's Goldeneye (1)	American Kestrel (1)	Great Horned Owl (1)	Gray Jay (2)	Yellow-headed Blackbird (3)
Hooded Merganser (1)	Prairie Falcon (3)	Snowy Owl (5)	Steller's Jay (1)	Brewer's Blackbird (1)
Common Merganser (1)	Virginia Rail (2)	Northern Pigmy-Owl (2)	Black-billed Magpie (1)	Brown-headed Cowbird (1)
Ruddy Duck (2)	Sora (4)	Short-eared Owl (3)	American Crow (2)	Bullock's Oriole (1)
California Quail (1)	American Coot (1)	Common Nighthawk (1)	Common Raven (1)	Cassin's Finch (1)
Chukar (1)	Sandhill Crane (5)	Vaux's Swift (2)	Horned Lark (1)	House Finch (1)
Gray Partridge (1)	Semipalmated Plover (4)	Black-chinned Hummingbird (1)	Tree Swallow (2)	Nashville Warbler (2)
Ring-necked Pheasant (1)	Killdeer (1)	Calliope Hummingbird (1)	Violet-green Swallow (1)	MacCallum's Warbler (1)
Ruffed Grouse (3)	Black-necked Stilt (4)	Rufous Hummingbird (1)	N. Rough-winged Swallow (1)	Common Redpoll (4)
Dusky Grouse (3)	American Avocet (3)	Belted Kingfisher (1)	Bank Swallow (1)	Pine Siskin (1)
Wild Turkey (1)	Sooty Sandpiper (1)	Williamson's Sapsucker (1)	Cliff Swallow (1)	Yellow Warbler (1)
Pacific Loon (5)	Solitary Sandpiper (4)	Red-naped Sapsucker (1)	Common Raven (1)	Yellow-rumped Warbler (1)
Common Loon (3)	Lesser Yellowlegs (3)	Downy Woodpecker (1)	Barn Swallow (1)	Wilson's Warbler (3)
Pied-billed Grebe (2)	Semipalmated Sandpiper (4)	Hairy Woodpecker (1)	Black-capped Chickadee (1)	Yellow-breasted Chat (1)
Horned Grebe (2)	Western Sandpiper (3)	Northern Flicker (1)	Mountain Chickadee (1)	Green-tailed Towhee (4)
			Chestnut-backed Chickadee (2)	Spotted Towhee (1)
			Red-breasted Nuthatch (1)	

Above: A sample of a “County Life” list – my Asotin list.

County Checklist [Newly added in 2020]: Back on the Master Spreadsheet, click 'control+K' [for Macs, 'option-command-K']. This opens a dialog box where you select a county and click ok. After a bit of processing, you'll see a one page checklist of the entire county checklist, with all the species you've checked off marked w/ an X. This gives you a one page glance not just at what you have but also what you need.

Columbia Checklist: Total: 260 (Have: 202 as of 01/21/2020)					
WATERFOWL	PIGEONS, DOVES	LOONS	FALCONS	CHICKADEES, BUSHTIT	LESSER GOLDFINCH
___ Snow Goose (5)	___ Rock Pigeon (1)	___ Iceland Gull (5)	___ Red-breasted Sapsucker (5)	___ Black-capped Chickadee (1)	___ Lesser Goldfinch (2)
___ Greater White-fronted Goose (5)	___ Band-tailed Pigeon (5)	___ Glaucous-winged Gull (4)	___ Am. Three-toed Woodpecker (3)	___ Mountain Chickadee (2)	___ American Goldfinch (1)
___ Cackling Goose (4)	___ Eurasian Collared-Dove (2)	___ Glaucous Gull (5)	___ Black-backed Woodpecker (4)	___ Downy Woodpecker (2)	___ Snow Bunting (5)
___ Canada Goose (1)	___ Mourning Dove (1)	___ Caspian Tern (2)	___ Hairy Woodpecker (2)	___ Chestnut-backed Chickadee (3)	___ Grasshopper Sparrow (3)
___ Trumpeter Swan (4)	___ Cuckoos	___ Common Tern (5)	___ White-headed Woodpecker (4)	___ Nuthatches, Creeper	___ Lark Sparrow (3)
___ Tundra Swan (4)	NIGHTHAWKS, SWIFTS	___ Forster's Tern (5)	___ Northern Flicker (1)	___ Red-breasted Nuthatch (1)	___ Chipping Sparrow (1)
___ Wood Duck (4)	___ Common Nighthawk (1)	LOONS	___ Pileated Woodpecker (3)	___ White-breasted Nuthatch (4)	___ Clay-colored Sparrow (5)
___ Blue-winged Teal (4)	___ Common Loon (5)	___ Pacific Loon (5)	___ Common Loon (5)	___ Pygmy Nuthatch (4)	___ Brewer's Sparrow (4)
___ Cinnamon Teal (3)	___ Black Swift (5)	CORMORANTS, PELICANS, HERONS	___ American Kestrel (1)	___ Brown Creeper (2)	___ Fox Sparrow (2)
___ Northern Shoveler (4)	___ X. Vaux's Swift (1)	___ Double-crested Cormorant (2)	___ X. Merlin (4)	WRENS, GNATCATCHER, DIPPER	___ American Tree Sparrow (4)

___ Lesser Scaup (3)	SHOREBIRDS	___ Sharp-shinned Hawk (2)	___ Gray Flycatcher (5)	___ Western Bluebird (2)	___ Inland Towhee (4)
___ Harlequin Duck (5)	___ American Avocet (5)	___ Cooper's Hawk (2)	___ Dusky Flycatcher (1)	___ Mountain Bluebird (2)	___ Spotted Towhee (1)
___ Surf Scoter (5)	___ American Golden-Plover (5)	___ Northern Goshawk (3)	___ Pacific-slope Flycatcher (5)	___ Townsend's Solitaire (2)	BLACKBIRD, ORIOLES
___ Long-tailed Duck (5)	___ Killdeer (1)	___ Bald Eagle (2)	___ Cordilleran Flycatcher* (3)	___ Veery (3)	___ Yellow-breasted Chat (3)
___ Bufflehead (2)	___ Semipalmated Plover (5)	___ Swainson's Hawk (2)	___ Say's Phoebe (1)	___ Swainson's Thrush (2)	___ Yellow-headed Blackbird (4)
___ Common Goldeneye (2)	___ Long-billed Curlew (4)	___ Red-tailed Hawk (1)	SHRIKES, VIREOS	___ Hermit Thrush (2)	___ Western Meadowlark (1)
___ Barn's Goldeneye (4)	___ Baird's Sandpiper (5)	___ Rough-legged Hawk (1)	___ Loggerhead Shrike (4)	___ American Robin (1)	___ Bullock's Oriole (1)
___ Hooded Merganser (2)	___ Least Sandpiper (4)	___ Ferruginous Hawk (4)	___ Northern Shrike (2)	___ Varied Thrush (2)	___ Red-winged Blackbird (1)
___ Common Merganser (1)	___ Pectoral Sandpiper (5)	OWLS	___ Cassin's Vireo (2)	MIMIDS, STARLING	___ Brown-headed Cowbird (2)
___ Red-breasted Merganser (5)	___ Semipalmated Sandpiper (5)	___ Barn Owl (2)	___ Warbling Vireo (2)	___ Gray Catbird (3)	___ Brewer's Blackbird (1)
___ Ruddy Duck (4)	___ Western Sandpiper (4)	___ Flammulated Owl (4)	___ Red-eyed Vireo (4)	___ Sage Thrasher (5)	___ Common Grackle (5)
GALINACEOUS BIRDS	___ Long-billed Dowitcher (5)	___ Western Screech-Owl (3)	CORVIDS	___ European Starling (1)	WARBLERS, BUNTINGS
___ Mountain Quail (5)	___ Wilson's Snipe (4)	___ Great Horned Owl (1)	___ Canada Jay (2)	WAXWINGS to PIPITS	___ Northern Waterthrush (5)
___ California Quail (1)	___ Spotted Sandpiper (4)	___ Snowy Owl (5)	___ Steller's Jay (1)	___ Bohemian Waxwing (4)	___ Black-and-white Warbler (5)
___ Chukar (4)	___ Solitary Sandpiper (4)	___ Northern Pygmy-Owl (2)	___ Blue Jay (4)	___ Cedar Waxwing (1)	___ Orange-crowned Warbler (1)
___ Gray Partridge (3)	___ Lesser Yellowlegs (5)	___ Burrowing Owl (4)	___ Clark's Nutcracker (4)	___ House Sparrow (1)	___ Nashville Warbler (4)
___ Ring-necked Pheasant (1)	___ Greater Yellowlegs (4)	___ Banded Owl (5)	___ Black-billed Magpie (1)	___ American Pipit (4)	___ MacGillivray's Warbler (2)
___ Ruffed Grouse (2)	___ Wilson's Phalarope (5)	___ Great Gray Owl (4)	___ American Crow (2)	___ Common Yellowthroat (4)	___ American Redstart (4)
___ Dusky Grouse (4)	___ Red-necked Phalarope (5)	___ Long-eared Owl (4)	___ Common Raven (1)	FINCHES, SPARROWS	___ Yellow Warbler (1)
___ Sharp-tailed Grouse (X)	GULL, TERNS, TROPICBIRD	___ Short-eared Owl (4)	LARKS, SWALLOWS	___ Pine Grosbeak (4)	___ Chestnut-sided Warbler (5)
___ Wild Turkey (1)	___ X. Bonaparte's Gull (4)	___ Boreal Owl (4)	___ Horned Lark (1)	___ Gray-crowned Rosy-Finch (3)	___ Yellow-rumped Warbler (2)
GREBES	___ Franklin's Gull (5)	___ Northern Saw-whet Owl (4)	___ Bank Swallow (2)	___ House Finch (1)	___ Townsend's Warbler (2)
___ Pied-billed Grebe (2)	___ Mew Gull (5)	KINGFISHER, WOODPECKERS	___ Tree Swallow (3)	___ Purple Finch (5)	___ Wilson's Warbler (3)
___ Horned Grebe (3)	___ Ring-billed Gull (1)	___ Belted Kingfisher (1)	___ Violet-green Swallow (1)	___ Cassin's Finch (1)	___ Western Tanager (1)
___ Red-necked Grebe (5)	___ Western Gull (5)	___ Lewis's Woodpecker (3)	___ N. Rough-winged Swallow (2)	___ Common Redpoll (5)	___ Black-headed Grosbeak (2)
___ Eared Grebe (4)	___ California Gull (1)	___ Williamson's Sapsucker (3)	___ Purple Martin (5)	___ Red Crossbill (2)	___ Lazuli Bunting (1)
___ Western Grebe (3)	___ Herring Gull (2)	___ Red-naped Sapsucker (2)	___ Barn Swallow (1)	___ White-winged Crossbill (5)	
___ Clark's Grebe (5)			___ Cliff Swallow (1)	___ Pine Siskin (1)	

©1/2020 Washington Birder www.wabirder.com

(1) Common, (2) Uncommon, (3) Harder to find, usually seen annually, (4) Rare, 5+ records, (5) Fewer than 5 records, (X) Extirpated, (I) Introduced

Above: A sample of a county checklist, my Columbia county checklist.

A few other tips:

For those not too familiar with working with multiple sheets in excel files: Each sheet has a tab along the bottom of the file window. The first 3 sheets in this file are the ones we've mentioned above: Master, Species & Rank. As you create county need and county life lists, these will be added as additional sheets, with the tabs to the right of the first 3. New tabs appear just after the 'Rank' tab. I'd recommend rearranging your county needs sheets into a more manageable order – I alphabetize them, split between Western WA and Eastern WA.

County need & life sheets are not automatically updated – so you'll want to regenerate them periodically to reflect new totals. When you do this, if you have not already deleted the previous sheet for that county, the new sheet will not be given the default sheet name [County name or County name + life] – After you've deleted the previous version, you will be able to rename the new sheet with the standard name.

If you select a tab and right-click [or control-click on a Mac], you'll see a menu of helpful options – renaming sheets, moving tabs, deleting sheets. You can do the same things with other maneuvers, but this is the one-stop option for most 'tab' needs.

Please send questions & feedback as you get used to the spreadsheet – We'll do our best to help.

Matt Bartels & Michael Hobbs
