

Washington Birder 2017 List Reports

2017 HIGHLIGHTS

Two new State Bird species found and one species “lost” to lumping

Congratulations to:

Ryan Merrill who found a Swallow-tailed Gull in King County and
Adrian Hinkle and Em Scattaregia who found a Zone-tailed Hawk in Clallam County

During 2017, the American Ornithological Society lumped Thayer’s and Iceland Gull.

Thayer’s Gull is now a subspecies of Iceland Gull. County abundance codes for
Iceland Gull were changed to reflect the inclusion of the much more common Thayer’s Gull.

Two more species have now been seen in all 39 Washington Counties

Sandhill Crane was seen by Christopher Lindsey in Garfield County
and Says Phoebe was seen in Island County by Darwin Wiley

100 or more Life List species seen in every County

Congratulations to Warren Terrell and Mike Denny
who both completed their goal of at least 100 species in every Washington county

Four “Highest Ever” County Year Lists Were Reported for 2017

Congratulations to

Donna Bragg/Ferry who ended the year with 192 species, an increase of 4 in a very tough county
Bruce LaBar/Pierce with a total of 237 species, which increased his old record by 12
Isaiah Nugent/Whatcom who saw 247 species, 38 more than the previous record and
RJ Baltierra/Whitman who’s total of 208 species increased the county record by 8

Symbols on the List

Names followed with (*) are for totals submitted in previous years that were not updated

Names followed with a (†) remember deceased birders with significant accomplishments
